

## PRESS RELEASE

# IKOR to receive CloudReady specialization in Guidewire partner program

**IKOR, international technology consultancy and systems integrator, receives specialization Guidewire PartnerConnect CloudReady - EMEA.**

Hamburg/Germany, November 07, 2023.

IKOR, a Select partner in the Guidewire PartnerConnect program, has been working with California-based software provider Guidewire on property and casualty insurance implementations and integrations since 2016: kicking off seven years ago on the first implementation of the complete Guidewire InsuranceSuite in Germany.

"Because Guidewire specializations are regionally focused through the Guidewire PartnerConnect program, partners like IKOR provide evidence of skills, knowledge, and competencies around specific Guidewire products or solutions," says Molly Black, Senior Director, Partner Programs and Enablement, Alliances at Guidewire Software. "This gives insurers more visibility into which partners in a region have specialized capabilities. IKOR is definitely on that level in the EMEA region."

"Cloud solutions are key drivers of innovation in the insurance business. With deep Guidewire expertise, IKOR helps insurance companies reduce risks when transitioning to the Guidewire Cloud with a step-by-step strategy based on IKOR's key technology SIP (System Integration Platform). We are proud of the constructive collaboration with Guidewire and are excited about the latest specialization we have achieved, Guidewire PartnerConnect CloudReady - EMEA," says IKOR Managing Director Sven Schlünzen.
